Government expanding list of foreign firms to buy crude oil

NEW DELHI: In a bid to widen supply sources, the government is expanding the list of foreign firms that can sell crude oil to state-run oil companies, by including global giants like Italy's Eni and Russian companies.

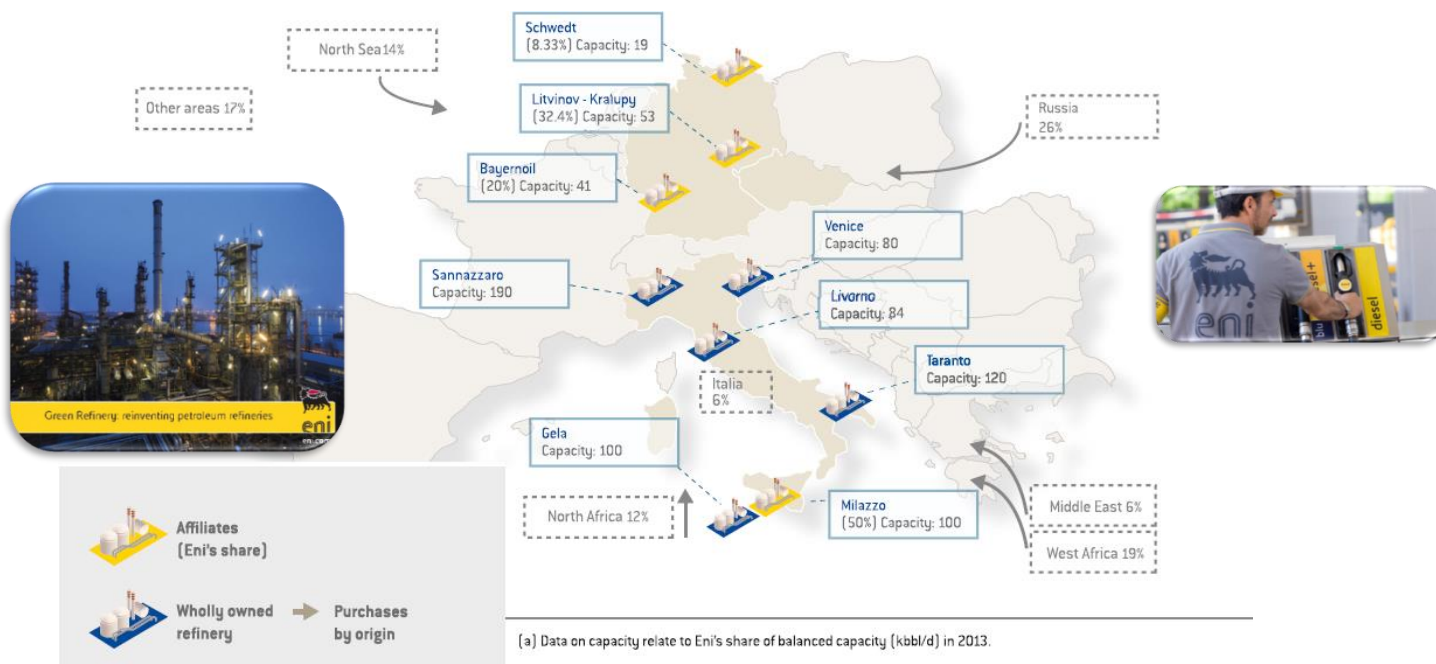

Besides national oil companies of oil producing nations, the government had on May 21, 2001 permitted state refiners to buy crude oil from top 10 foreign firms. Of this list, a few firms have subsequently merged and some are no longer major players in global oil production and supply business.
